fun fact: winter is a famous dolphin and star of the movie dolphin tale.

why choose a gender-neutral name for your baby?

## Where To Download The Longest Whale Song By Jacqueline Wilson

there are many personal and practical reasons to consider a gender-neutral name for your child.

unisex baby names ( also known as gender neutral names), suitable for both boys and girls are one of the hottest baby-naming trends right now.

to some, the idea of a gender-fluid or non-binary name sounds, modern, fresh, cool, and even unique.

others want to avoid and prevent gender stereotyping or sexism in the child's future.

babycenter further states that unisex baby names are preferred by modern, forward-thinking parents.

that's because non-binary baby names give the children a fresh start and the chance to define their identities freely, as they grow up and mature.

now, if you too want to give your newborn a better chance for future success by gifting them a gender-neutral name, this article is for you.

without further ado, these are the best 81 popular and unique gender-neutral names in 2022 (in alphabetic order).

conclusion

as stated at the begging of this list of androgynous and gender neutral names, just like languages, names evolve and change all the time.

for example, ashton, alexis, blake, casey, marion, harper, parker have initially been used as girl names.

over time, these names have become boys' names, and nowadays we see them used as brand names by gender-free labels and gender-neutral clothing designers.

babycenter has also seen a recent trend of names that flipped from the blue column to the pink one: stevie, max, drew, tyler, and ryan, once thought of as boy names only are now gaining ground with the girls.

finally, we are seeing the influence of brands and movie characters impacting parents' choice for gender-free names.

as such, new gender neutral names such as oakley, landry, armani, azariah, royal, rowan, baylor, quartz, and phoenix have started to gain ground.
